

Academic Portfolio

Discover world-class medical specialization at Bangladesh Medical University.

Our Faculties

Divided into specialized clinical and research sectors, our faculties represent the pinnacle of medical training in the region.

FACULTY OF MEDICINE

 Cardiology

MD Cardiology

Advanced residency in diagnostic and interventional heart care protocols.

MD Neurology

Specialized study of the central nervous system and neuro-pathologies.

 Medicine

MD Internal Med

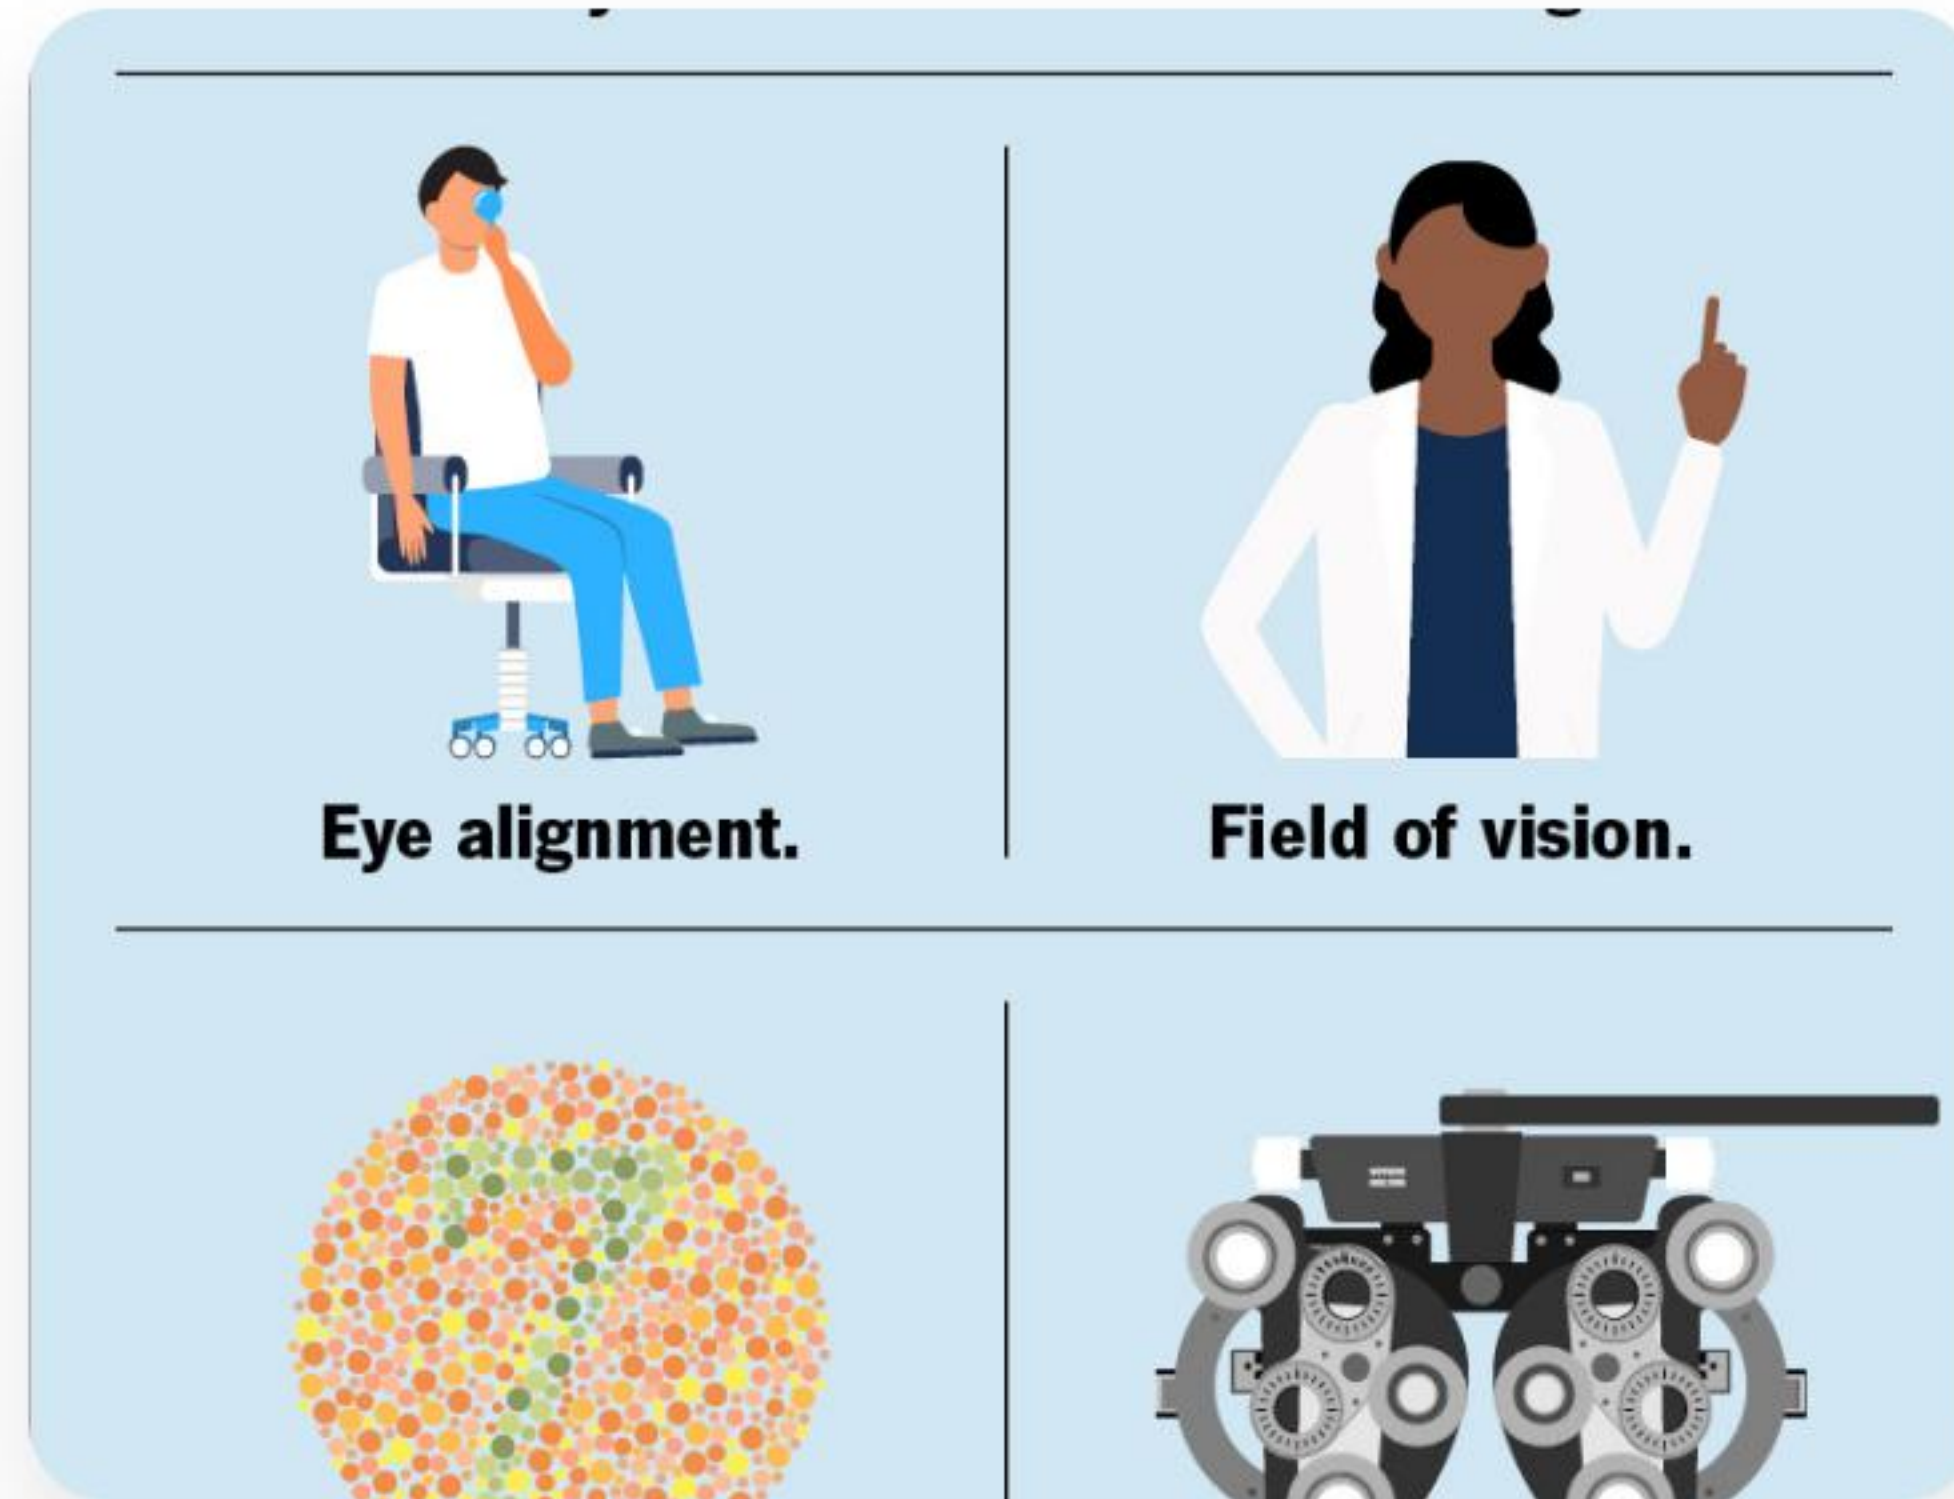

Comprehensive training in complex systemic disease management.

FACULTY OF SURGERY

MS Orthopaedics

Focus on musculoskeletal trauma and reconstructive surgical techniques.

MS Ophthalmology

Clinical and surgical mastery of ocular health and laser procedures.

Surgery Hall

MS Gen Surgery

Foundational surgical training across abdominal and trauma cases.

RESEARCH DEGREES

M.Phil Programs

Research-intensive 2-year masters for basic medical science specialties including Microbiology and Physiology.

PhD Research

The highest level of academic inquiry, focusing on genomics, pathology, and novel therapeutic trials.

Post-Doc

Advanced research positions for established doctors to lead clinical breakthrough studies.

INSTITUTIONAL IMPACT

85%

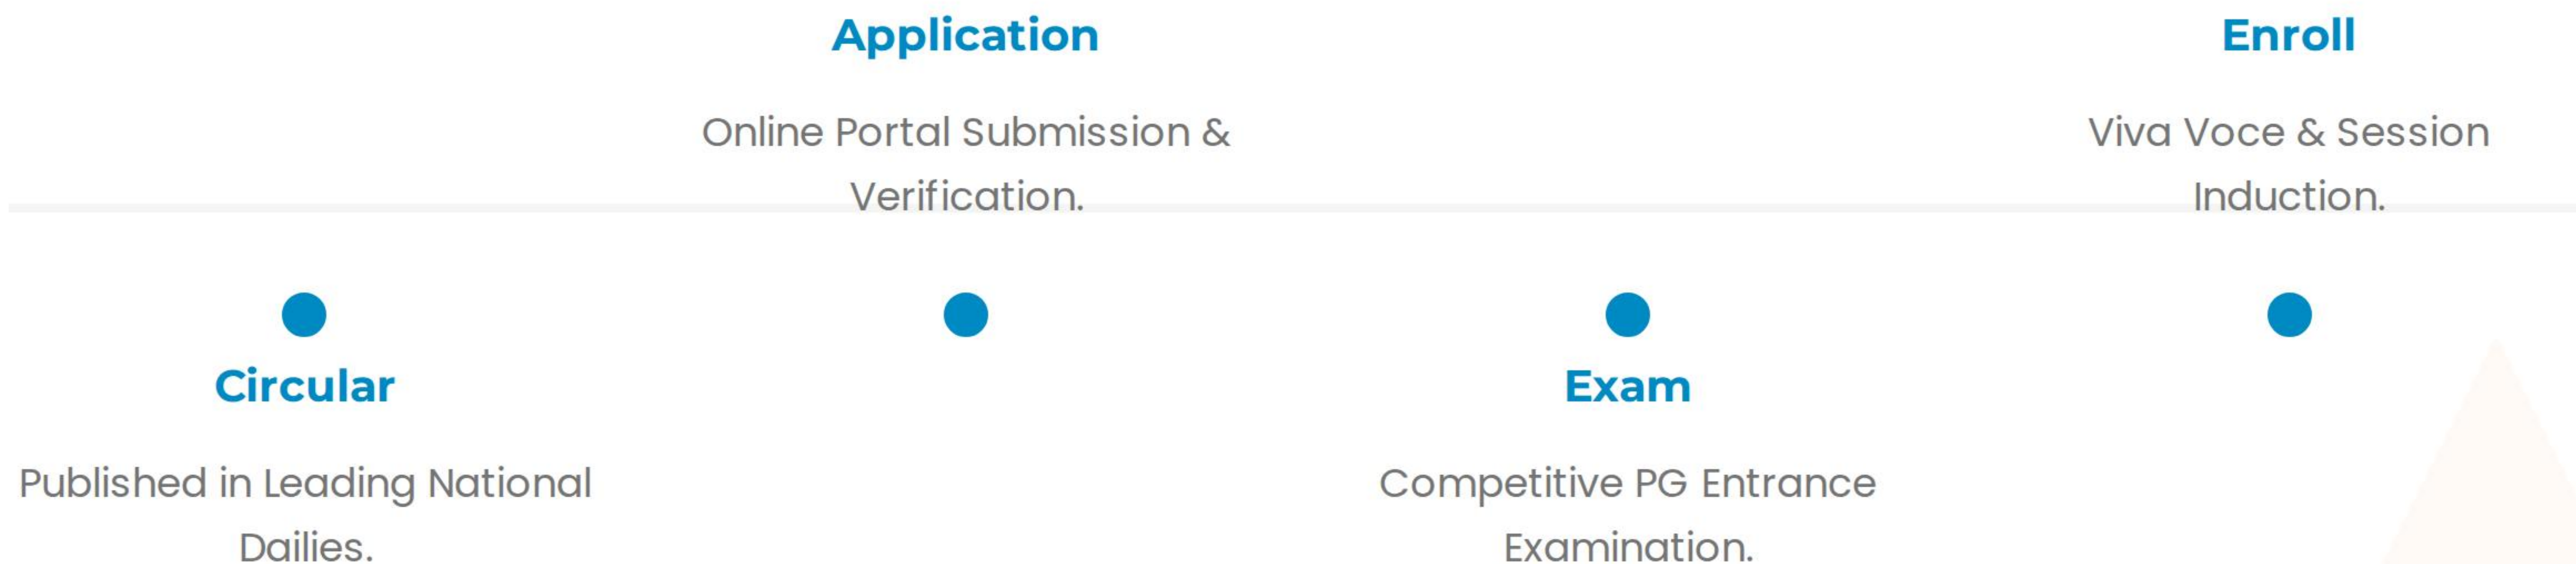

Global Residency Match Rate

400+

Published Research Papers

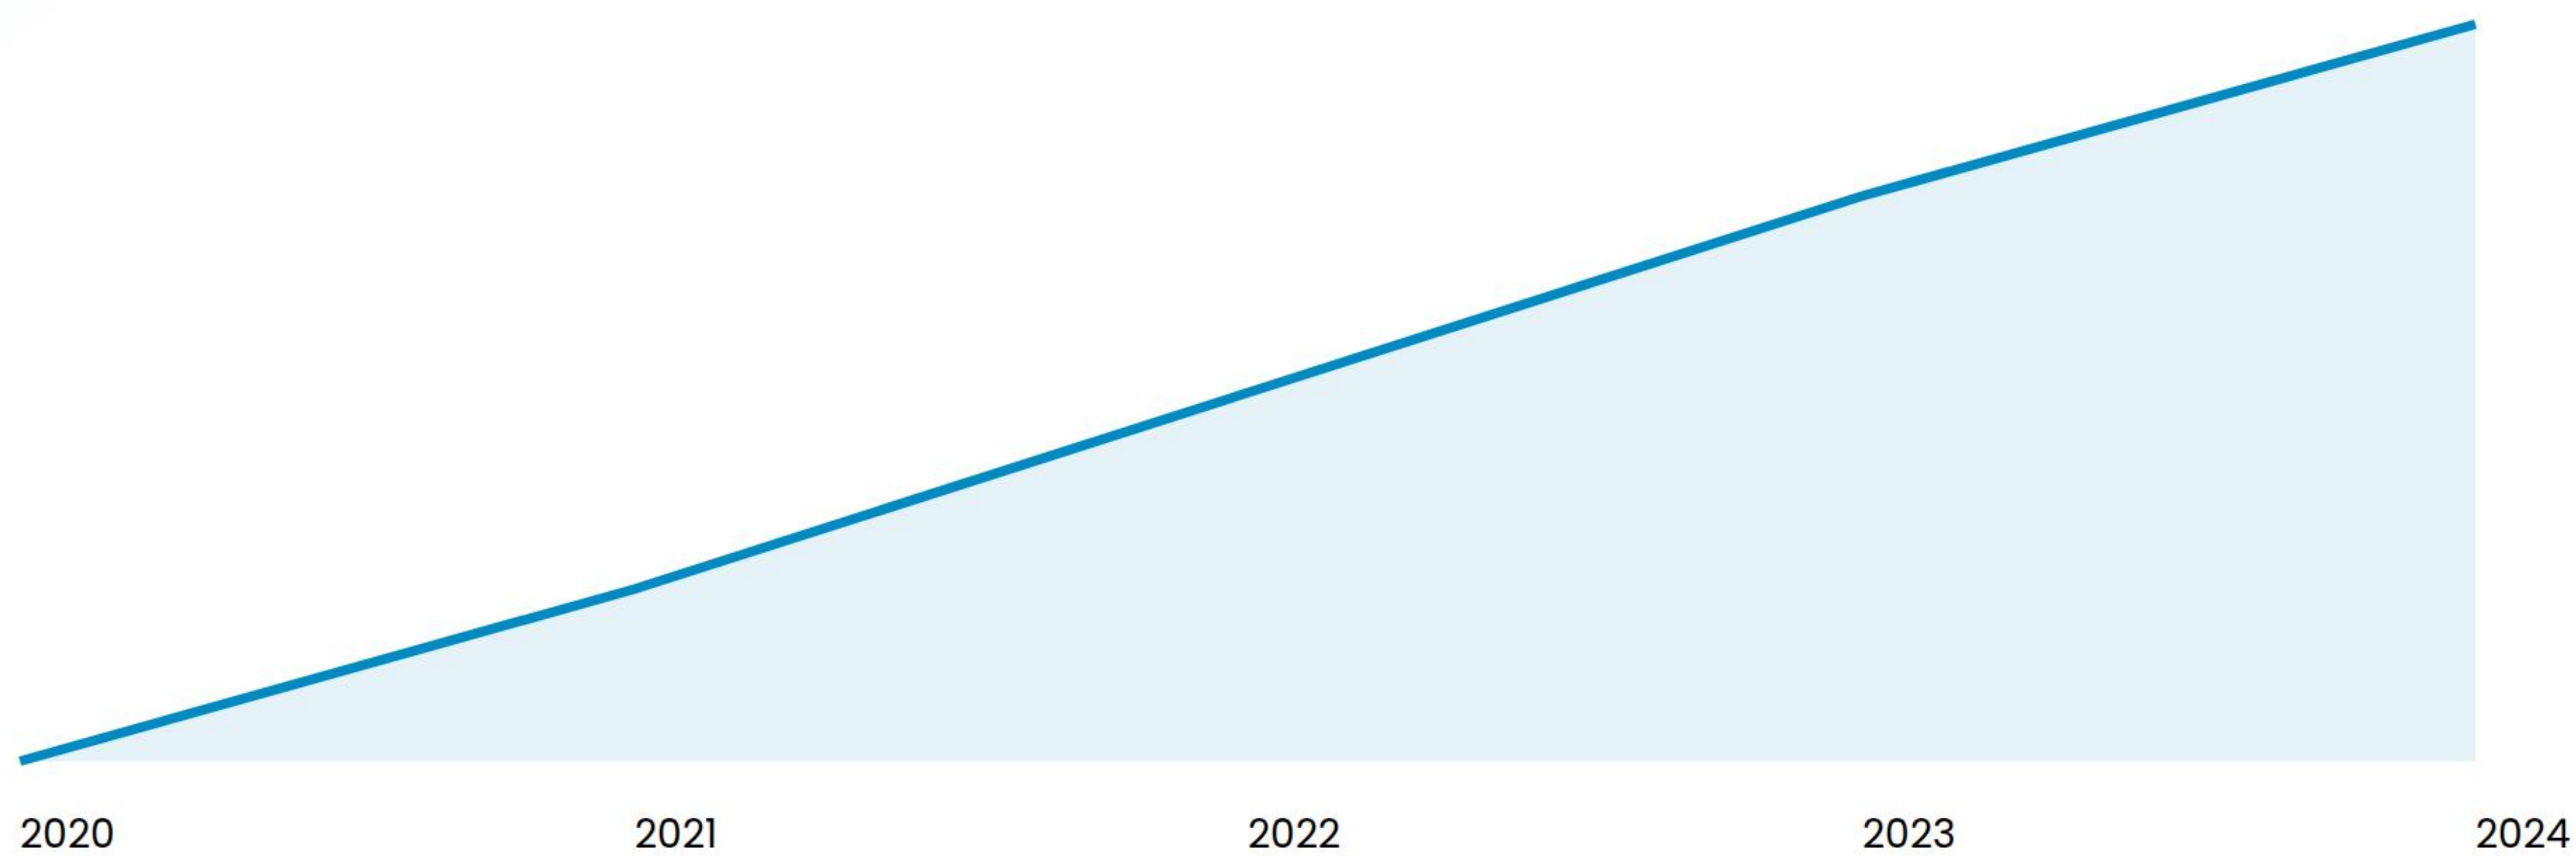

| THE ADMISSION CYCLE

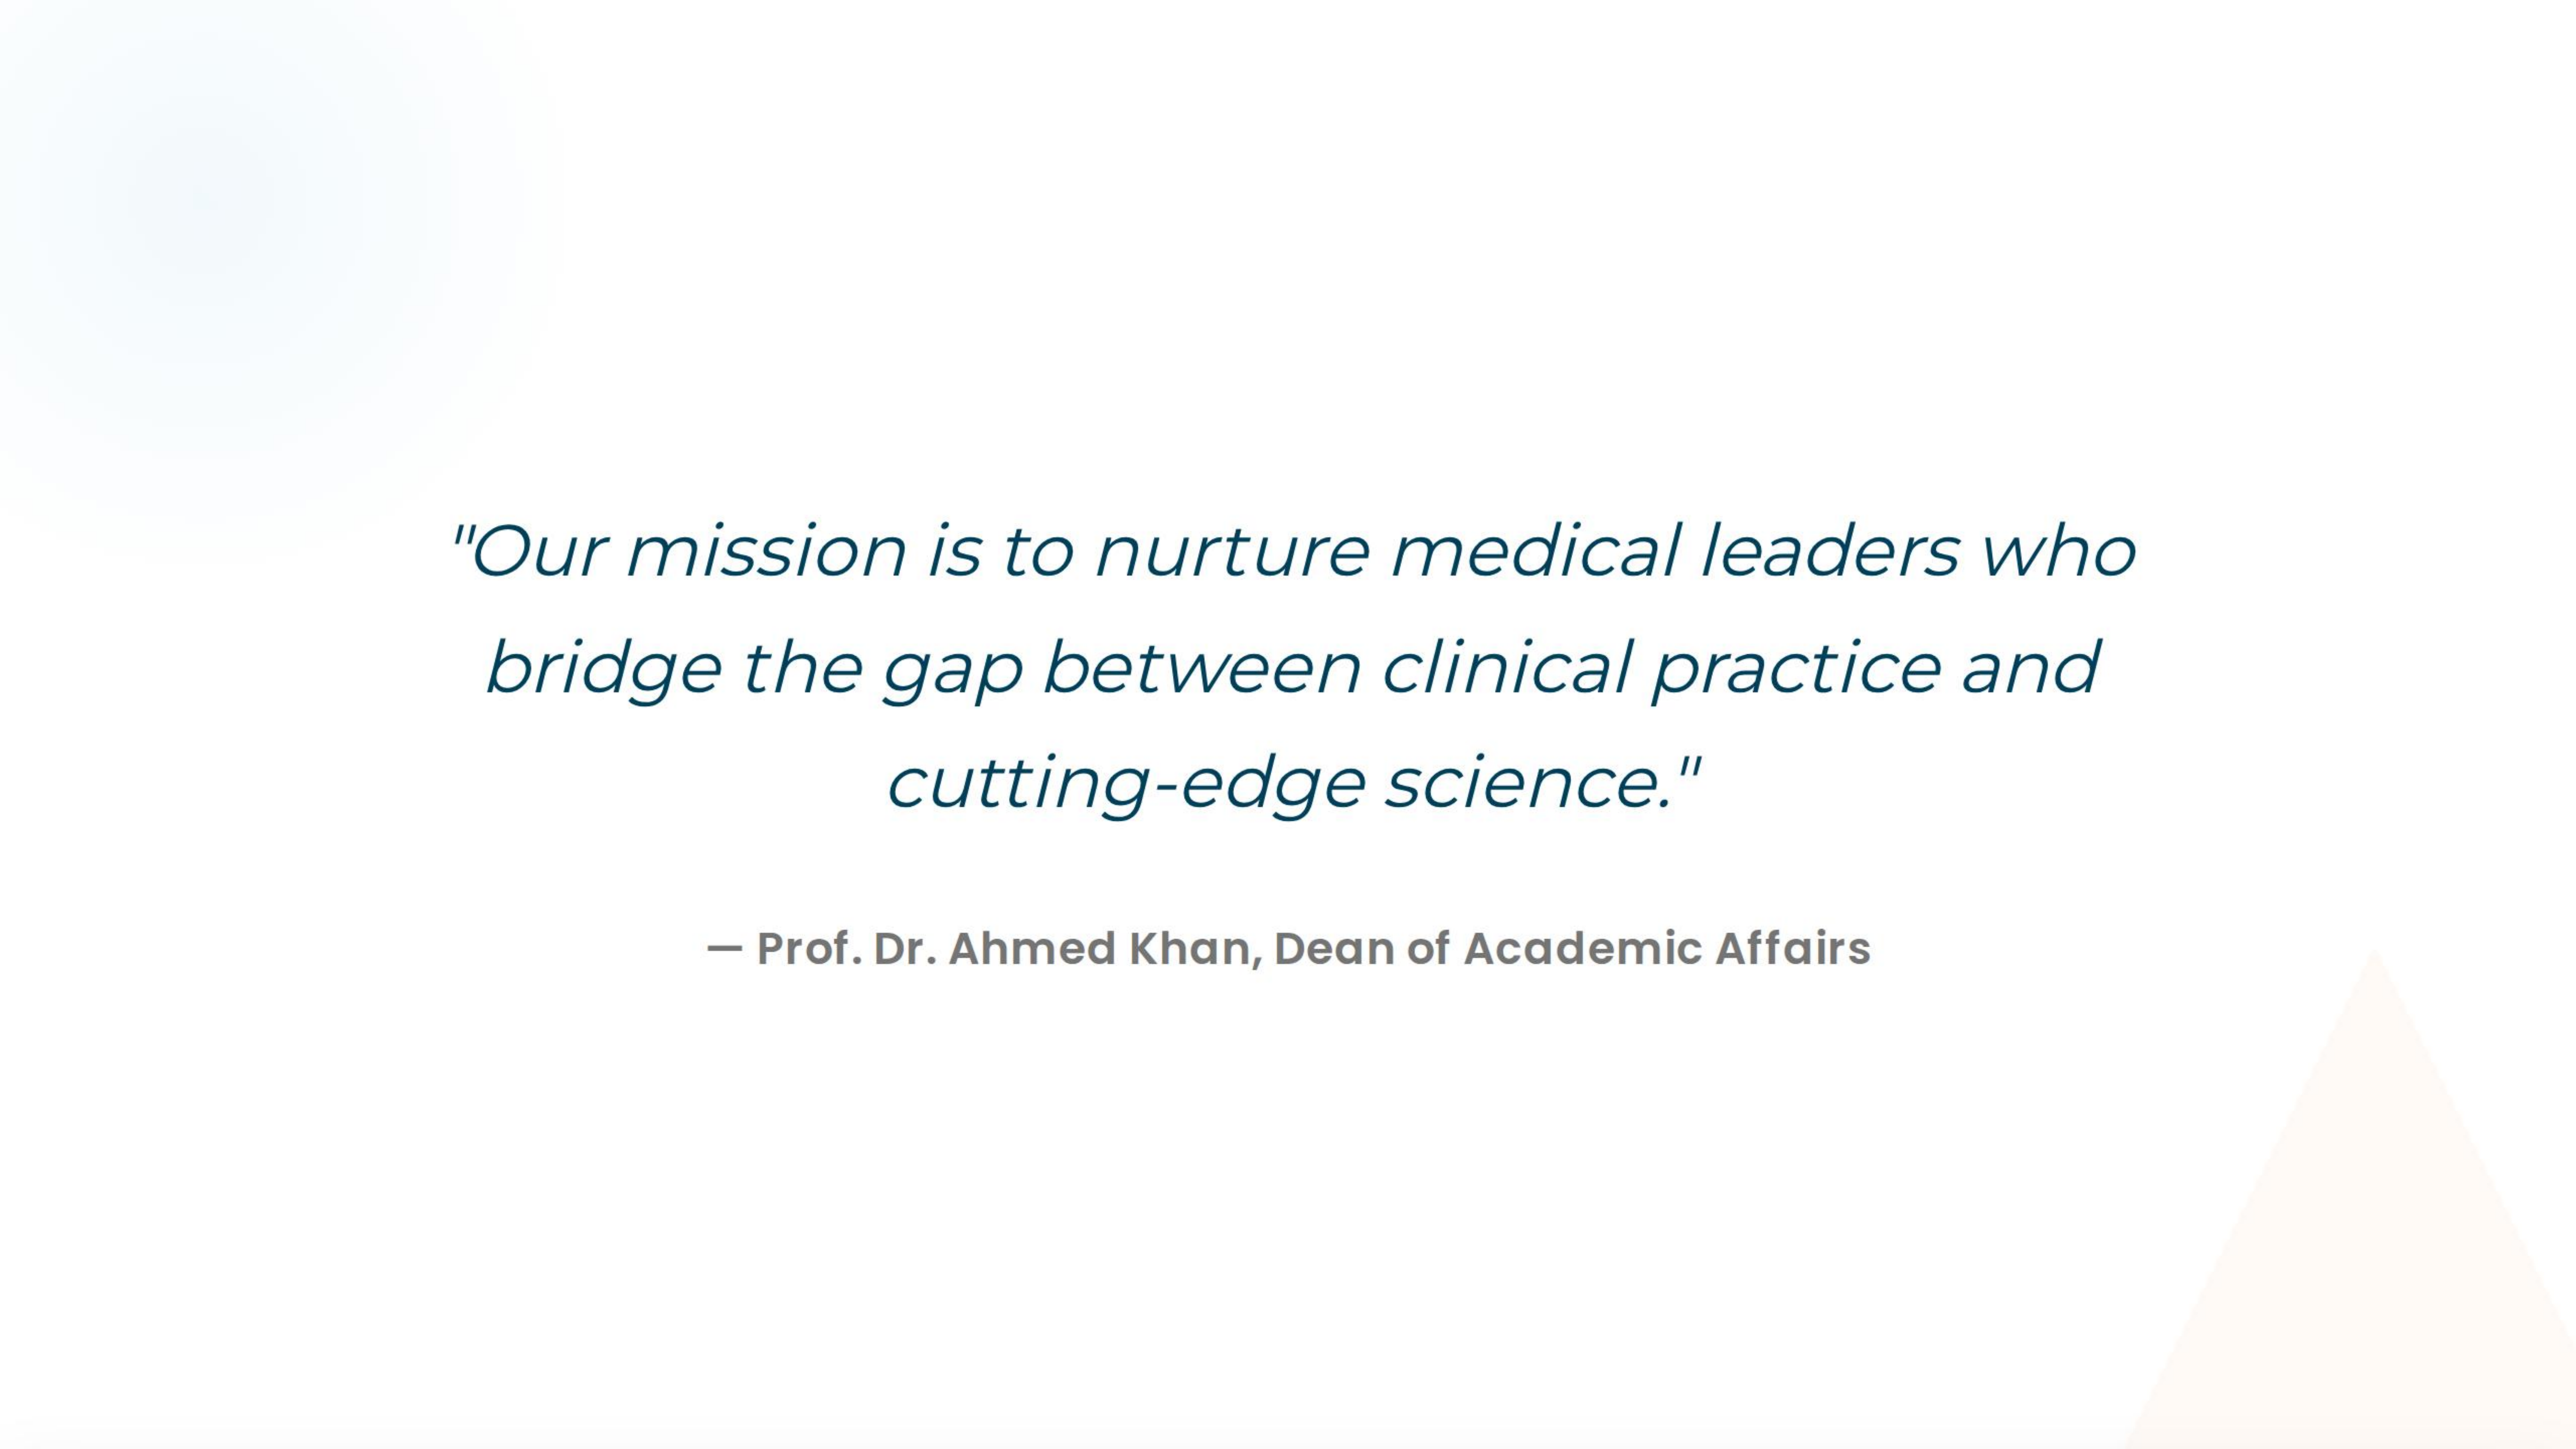

FEE COMPARISON

Course Category	Duration	Credits	Semester Fee
MD / MS Programs	5 Years	240	₹ 45,000
M.Phil Programs	2 Years	120	₹ 35,000
Diploma Courses	1-2 Years	60-90	₹ 25,000
PhD Research	3-5 Years	Thesis	₹ 55,000

ENROLLMENT GROWTH

Annual increase in postgraduate applicants since 2020.

*"Our mission is to nurture medical leaders who
bridge the gap between clinical practice and
cutting-edge science."*

— Prof. Dr. Ahmed Khan, Dean of Academic Affairs

The Clinical Hub

Students gain direct exposure to complex cases in our affiliated 1500-bed hospital, ensuring that theoretical knowledge is immediately tested in real-world clinical environments.

Our simulation labs provide a safe space to master intricate surgical and diagnostic skills before entering the operating theatre.
